

NAS Cell CBSE, Delhi

Notification: Regarding Training Videos for Field Investigators

NAS Cell-CBSE is pushing the training Video for all stakeholders. Being big in size, they are split into two. The one shared here is meant for capacity building of Field Investigators. It is in Hindi and English.

All are requested to have a look and familiarize with the nuances. All DLCs, DNOs, SNOs, Observers and FIs have to be on the same page. Individual explanation has to be in total uniformity to avoid any incorrect interpretation. This video being self-explanatory would empower everyone for proper training leading to seamless conduct of NAS in their respective District. Use this video and start training the FIs so that they are fully acquainted with their roles & responsibilities.

Please note. This is for the FIs. Similar videos for Observers are ready and will be shared shortly.

Best wishes & regards

Sd/-
