Capacity Building (CB) Documents: NAS 2021

As part of process familiarisation about the modalities and the deliverables in respect of Field Investigators and Observers who have key roles in conduct of NAS in assigned sample school, following documents are hereby made available on the NAS Portal. This is done keeping in view the requests and the queries coming in from the appointed FIs and Observers. The DNOs, DLCs, Resource Centres schools (RCC) and the CBSE Regional Offices may refer these documents for holding local level capacity building sessions for FIs and the Observers either in small group discussions or through VC mode as they may deem fit in their respective setting. Being in simple narrative tones, we do hope that these documents would be found very handy and it would bring clarity about the set of tasks, one has to perform on the days prior to NAS, on the day of NAS and after NAS.
